MEMORANDUM OF UNDERSTANDING

BETWEEN

ExcelR Solutions

&

**ACHARYA PATHASALA COLLEGE
OF ARTS & SCIENCE**

Basavanagudi, Bangalore.

FOR

**Student Development & Faculty Development
Programs on Different Emerging Software
Technologies**

PRINCIPAL
APS College of Arts & Science
N.R. Colony, Bangalore-560 019.

MEMORANDUM OF UNDERSTANDING

This **Memorandum of Understanding** (herein after called as the 'MOU') is entered into on this the 29th day of October month 2022 (Date 29-10-2022), by and between **ExcelR Solutions**, (herein after referred as 'First Party')

And

Acharya Pathasala College of Arts & Science
(herein after referred to as "Second Party",
(First Party and Second Party are here in after jointly referred to as 'Parties' and individually as 'Party')

WHEREAS:

1. First Party is a EdTech company: ExcelR Solutions
2. First Party & Second Party believe that collaboration and cooperation between themselves will promote more effective use of each of their resources and provide each of them with enhanced opportunities.
3. The Parties intend to cooperate and focus their efforts on cooperation within the area of Skill Based Training, Education and Research.
4. Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.

PRINCIPAL
APS College of Arts & Science
N.R. Colony, Bangalore-560 019.

**NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL
PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO
AGREE AS FOLLOWS:**

CLAUSE 1: CO-OPERATION

5. Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings.
6. First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to the second party in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
7. The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.
8. ExcelR would be the training delivery partner for the second party on various trending technologies
9. Training & Development and dissemination of knowledge for students of second party & affiliated colleges and employees of both the organizations.
10. ExcelR would work with incubation centers/ innovation cells of second party(Case to case basis), to formulate the business cases and data collection process from various industry and academic bodies that are associated with the second party
11. Cooperation between both parties would be extended to any other area which may be mutually beneficial to both organizations.

CLAUSE 2: SCOPE OF THE MoU

12. The budding graduates from the institutions could play a key role in the technological up-gradation, innovation, and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.
13. Curriculum Design: First Party will give valuable input to the Second Party in teaching/training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
14. Software Technologies Training: The first party will provide the training to the students and Faculties of the second party on different technologies like Data Science, Data Analyst, Artificial Intelligence, Tableau, Python, etc., Research and Development
15. Skill Development Programs: First Party to train the students of the second Party on the emerging technologies in order to bridge the skill gap and make them industry ready.
16. Guest Lectures: First Party to extend the necessary support to deliver guest lectures to the students of the second Party on the technology trends and in-house requirements.

17. Faculty Development Programs: First Party to train the faculties of the second Party for imparting training as per the industrial requirement considering the National Occupational Standards in concerned sector, if available.
18. Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein
19. There is no financial commitment on the part of the second party to enroll the students and faculties for the different free trainings run by the first party under Everyday Learning Initiation.
20. The first party would extend the help in providing artifacts such as training records and certificates to the second party upon a written request from the second party. This information is limited to only the students of the second party and at the discretion of the first party.
21. In case, the second party wants to conduct customized commercial training then this agreement can be amended, adding annexure with mutually agreed terms.

CLAUSE 3: INTELLECTUAL PROPERTY

22. The first party will have the sole rights on the curriculum and related content provided in the training and it cannot be replicated or copied without the consent of the first party.
23. Confidentiality: Except as may otherwise be required by law, each party will hold confidential, during and after the term of this Agreement, any confidential information disclosed to it or its representatives, and will not disclose any such confidential information to any third party.

CLAUSE 4: VALIDITY

24. The period of the agreement is valid for a period of 2 years from the date of signing of this agreement
25. This agreement will be valid only at the intentions of the parties involved therein, this MOU could be dissolved or cancelled by either party any time by giving 30 days' notice and shall not have any legal bindings in nature. should either or all the parties to it opt to not act upon, the MOU loses its validity.

CLAUSE 5: RELATIONSHIP BETWEEN THE PARTIES

26. It is expressly agreed that First Party and Second Party are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

DEPARTMENT OF CHEMISTRY

Internship report 2023-24

Internship aims to enhance knowledge, technical skills and understanding of industry trends and best practices. Students gain hands-on experience and apply theoretical knowledge in real areas.

As part of the academic curriculum for the 6th semester B.Sc, final-year Chemistry students successfully completed their internships at Chariton Research Institute Private Limited.

Details of Internship:

Internship Period: 6 th May 2024 – 15 th May 2024			
Sl no.	Institution	Location	No. of Students
01	Chariton Research Institute Private Limited	No. 67/3, 1 st Floor, Industrial Suburb, Yeshwanthpur, Bangalore-560022	09

Chariton Research Institute Private Limited is a reputed organization specializing in analytical testing services for environmental, pharmaceutical, and industrial applications. Equipped with state-of-the-art instruments, the institute provides accurate and reliable data to support quality assurance and regulatory compliance.

Students collected water and wastewater samples from various sources, including industrial and municipal outlets. Using the UV-Visible Spectrophotometer, they calibrated the instrument, analysed absorbance spectra, and interpreted data to identify and quantify contaminants. This process enabled them to assess water quality and understand pollution levels effectively.

For the analysis of pharmaceutical samples, students prepared T4 Trituration samples under stringent laboratory conditions. They calibrated the HPLC system, optimized chromatographic settings, and analysed chromatograms to determine the purity and composition of the samples. This activity highlighted the precision required in pharmaceutical analysis and the importance of maintaining consistent laboratory practices.

Outcomes:

1. **Practical Exposure:** Students applied theoretical knowledge of analytical chemistry in real-world laboratory settings, deepening their understanding of UV-Visible Spectrophotometry and HPLC principles.
2. **Technical Expertise:** Gained hands-on skills in operating advanced instruments, ensuring precision in water, wastewater, and pharmaceutical sample analysis.
3. **Career Readiness:** Adapted to professional workflows, ethical practices, and quality standards, preparing for careers in industrial and research domains.
4. **Teamwork and Collaboration:** Worked collaboratively with peers and industry experts, fostering a productive and cooperative laboratory environment.
5. **Analytical and Problem-Solving Skills:** Developed a systematic approach to identifying contaminants, optimizing methodologies, and interpreting complex data.
6. **Industry Insights:** Acquired practical knowledge of environmental and pharmaceutical testing techniques, regulatory standards, and quality assurance practices.

Conclusion:

The internship at Chariton Research Institute Private Limited was a valuable experience for the students. It bridged the gap between academic knowledge and industrial practices, equipping students with the skills and confidence to pursue careers in analytical chemistry and related fields. The hands-on experience with advanced instrumentation and real-world problem-solving has significantly enriched their academic journey.

Department of Economics

Internship Report

The internship program provides students with a valuable opportunity to gain hands-on experience in economic perspectives and growth. This internship, a key component of the academic curriculum for 6th-semester B.A students for the academic year 2023-24, enhanced students to bridge the gap between academics and technological institutions. Students were able to apply their theoretical knowledge in dynamic, real-world situations, enriching their academic journey with practical insights.

Objectives:

1. To understand the application of economic concepts in real-world scenarios.
2. To develop skills in data analysis and interpretation.
3. To gain insight into the operations of financial institutions and technology companies.
4. To enhance understanding of market trends and regulatory frameworks.
5. To cultivate professional networking skills and industry connections.

The students undertook their internship at several reputable companies, namely:

- **Aryze Technologies**

Through this internship, students acquired hands-on experience with software testing methodologies, including manual and automated testing, and developed skills in test planning, execution, and defect management.

In addition to technical skills, students improved their communication, collaboration, problem-solving, and time management skills, essential for success in a fast-paced lifestyle.

Students also gained valuable industry knowledge, including understanding the software development life cycle, testing tools and technologies, and industry trends and best practices in software testing and quality assurance.

- **Bajaj Housing Finance**

Through this internship, students gained in depth knowledge about the housing finance sector, developing a deep understanding of mortgage lending, loan processing, and risk management. Students also acquired knowledge of financial regulations, compliance, and governance, essential

for navigating in the financial services industry. Students enhanced their analytical and problem-solving skills by working on real-time projects, analyzing financial data, and identifying trends. They also developed strong communication and interpersonal skills, interacting with customers, sales teams, and other stakeholders.

• TASKOM

Students developed experimental skills in project management, task automation, and workflow optimization, utilizing Taskom's innovative platform. Students gained practical knowledge in designing and implementing customized workflows, enhancing their analytical and problem-solving skills.

Outcomes:

1. Applied economic concepts to real-world scenarios.
2. Developed data analysis and interpretation skills using various tools.
3. Gained industry insights into financial and technology sectors.
4. Enhanced understanding of regulatory frameworks and compliance.
5. Established professional connections and developed networking skills.

Conclusion

This internship experience has been invaluable in bridging the gap between theoretical knowledge and practical application, providing a solid foundation for future career endeavors.

DEPARTMENT OF HISTORY INTERNSHIP REPORT

This report documents the internship carried out by 6th-semester students of BA as a part of curriculum for the academic year 2023-2024.

The students were assigned several historical and architectural significant places across Bangalore like temples, lakes and heritage sites. The aim of the internship was to enhance their academic knowledge and to provide insights into sustainable tourism, heritage conservation, and city planning.

Objectives:

- To explore the historical and architectural significance of Bangalore's heritage sites.
- To understand the cultural, religious, and social relevance of various historical places in the city.
- To analyze the preservation and conservation efforts of these places.
- To gain knowledge about the role of historical places in promoting tourism.

The students were allotted the following topics like importance of temples in Bangalore- Gavi Ganghadareshwara temple, Nageshwara Swamy temple and Jain Basidies.

The internship involved, students to conduct field research, document their findings, and analyze the historical, cultural, and architectural relevance of the sites they visited. This enhanced their ability to conduct research, assess historical contexts, and interpret cultural significance. By actively engaging with historical places and understanding the challenges they face, the students developed a sense of responsibility towards heritage conservation.

They recognized the need to preserve Bangalore's rich history and cultural landmarks, not just for academic purposes but also for future generations.

Conclusion:

The internship was a highly enriching experience, offering students valuable insights into Bangalore's historical and cultural landscape. The visit to various heritage sites not only enhanced their academic knowledge but also deepened their understanding of the importance of preserving the city's legacy. The students returned with a renewed sense of responsibility towards heritage conservation and sustainable tourism, which will positively influence their future academic endeavors and professional contributions.

Names of student participants in internship program:

Internship report 2023-24

As part of the academic curriculum for the 6th semester, 13 final-year B.Sc (Physics-Mathematics) students from APS College of Arts and Science successfully completed their internships at Pallakki NDT Excellence Center Pvt. Ltd. and Maini Precision Products Limited. The internship aimed to provide practical exposure to industrial applications of physics and enhance their technical and analytical skills.

Details of Internship:

Internship Period: 6th May 2024 – 20th May 2024			
Sl no.	Institution	Location	No. of Students
01	Pallakki NDT Excellence Center Pvt. Ltd	4th Phase, 411A, 11th Cross Rd, Ganapathy Nagar, Phase 3, Peenya, Bengaluru, Karnataka 560058	11
02	Maini Precision Products Limited	B-165, 3 rd Cross, Peenya 1 st Stage, Netaji Nagar, Peenya, Bengaluru- 560058	02
Total no. of students			13

At Pallakki NDT Excellence Center, students operated advanced non-destructive testing (NDT) equipment to detect internal and surface defects in industrial materials, gaining insights into material safety and quality assurance without causing damage. They developed enhanced knowledge of NDT methodologies, improved their skills in handling diagnostic tools, and understood the importance of NDT in ensuring industrial safety and quality control.

At Maini Precision Products Limited, students engaged with precision engineering tools to ensure product accuracy and efficiency, while applying physics concepts to design and manufacturing processes. They acquired real-world experience in precision engineering

techniques, gained insights into industry-standard quality assurance practices. This internship significantly contributed to their technical and professional growth, preparing them for future challenges in the field.

Outcomes:

- **Practical Exposure:** Students applied theoretical physics concepts in real-world industrial settings, enhancing their understanding of core principles.
- **Technical Expertise:** Gained hands-on skills in operating advanced equipment such as NDT tools and precision engineering instruments.
- **Career Readiness:** Adapted to industry workflows, workplace ethics, and professional standards, preparing them for future roles in industrial and research domains.
- **Teamwork and Collaboration:** Worked closely with industry professionals and peers, fostering a collaborative and productive work environment.
- **Analytical and Problem-Solving Skills:** Developed the ability to approach challenges systematically and devise practical solutions in technical contexts.
- **Industry Insights:** Acquired knowledge of cutting-edge techniques in NDT, precision engineering, and quality assurance practices.

Conclusion: The internship program at Pallakki NDT Excellence Center Pvt. Ltd. and Maini Precision Products Limited was a significant milestone in the students' academic journey. It provided a platform to apply theoretical knowledge in industrial settings, fostering technical and professional growth.

DEPARTMENT OF POLITICAL SCIENCE INTERNSHIP REPORT

The internship program offers students an invaluable opportunity to gain hands-on experience in local governance, rural development and community services. This internship was part of the academic curriculum for 6th semester students of the Bachelor of Arts (BA) program for the academic year 2023-2024. It was carried out on Grama Panchayath at Agara.

The primary objectives of the internship program at Agara Grama Panchayat are:

- To understand the functioning of the Grama Panchayat and its role in rural governance.
- To participate in community development projects and local governance activities.
- To gain hands-on experience in administration, planning and policy implementation.
- To engage with local citizens and understand their issues, needs and feedback.
- To develop problem-solving and critical thinking skills of students.

Agara Grama Panchayat is a local administrative unit situated in **Agara Grama Panchayat, Bangalore South, Kengeri Hobli, Bangalore District, pin code: 560062**. The Panchayat is responsible for various community development programs, public services, infrastructure maintenance, and the welfare of the people in the Agara village and surrounding areas. It serves as a bridge between the state government and the rural area, helping to implement government policies and programs at the grassroots level.

During their internship at Agara Grama Panchayat, students assisted with administrative tasks such as managing documents and processing public service applications. They conducted surveys to assess community needs in areas like health, education, and infrastructure.

The interns also attended Gram Sabha meetings, engaging with locals to understand their concerns. Additionally, they contributed to community development programs and learned how government policies are implemented at the grassroots level. This hands-on experience provided them with valuable insights into rural governance and community engagement.

Outcome: Interns developed several key skills and acquired valuable knowledge during their internship.

Conclusion:

The internship at Grama Panchayat on Agara was an enriching experience that allowed students to understand the vital role of local governance. A total of 8 students were involved in the internship program at Agara Grama Panchayat, participating in various tasks that provided them with valuable insights into local governance.

List of students in internship program:
